

Shoval Elhaiany

Looking for a junior level software developer position

Motivated and hard worker with a strong desire for continuous self-improvement. Autodidact with a passion for learning and developing new skills. Seeking an opportunity to contribute effectively in a collaborative team environment. Ready to embrace challenges .and excel in a dynamic work setting

Full Stack Python Development

I gained expertise in Python, JavaScript, SQL, HTML, CSS, Django, Flask, and React through my full-stack development course. I learned efficient coding, dynamic web development, effective database design, and creating visually appealing interfaces. With hands-on experience in Django, Flask, and React, I developed secure and scalable web solutions. The course also improved my problem-solving and code organization skills. I am well-prepared to contribute as a junior software .developer in web development projects

A high school diploma (Film and production class)
